Research Collaboration Community
Rescollacomm · Bandung, Indonesia

Prospectus 2026

Research that reaches print, and people.

International journals, Scopus publication training, international conferences, and tutoring for school students.

RCC · IORA · CRP

Since 2019

Who we are

A community that helps academics publish, teach and grow.

Research Collaboration Community (Rescollacomm, or RCC) was founded in Bandung on 25 May 2019 to advance quantitative research and mathematical modelling in Indonesia. Its team brings together lecturers and researchers in mathematics, statistics and related fields who publish in Scopus-indexed journals.

Today RCC manages ten peer-reviewed, open-access international journals across three publishing units, RCC, IORA and CRP. It runs publication workshops with universities, co-hosts seminars and conferences, and offers tutoring for school students.

Scientific article writing workshop with Universitas Muhammadiyah Sukabumi, June 2026.

Three areas of work

Journal publishing

Ten international journals in mathematics, business, education, health, law and community service, nine accredited by SINTA.

Training and conferences

Scopus publication workshops, coaching clinics and webinars, plus co-hosted seminars and conferences with publication outputs.

Tutoring

English, mathematics and science for SD, SMP and SMA students, plus UTBK-SNBT and CPNS test preparation.

RCC in numbers

A small team with a wide reach: journals, trainers and partners that institutions can rely on.

10
international journals in three publishing units

9
journals accredited by SINTA

40
journal issues published every year

10
indexing services, including DOAJ, Crossref and Dimensions

6
trainers with Scopus author profiles

35
highest h-index on the trainer team

4
partner universities and student organisations

5
tutoring programs, from elementary school to CPNS

2019
founded in Bandung, West Java

Figures as of November 2026. Trainer metrics from each trainer's Scopus author profile. SINTA: Science and Technology Index of the Indonesian Ministry of Higher Education.

Our journals

Every journal is peer reviewed and open access, publishes four issues a year, and registers a Crossref DOI for each article.

Journal and publisher	SINTA	Issues	APC
IJBESD Business, Economics, and Social Development RCC · also indexed in DOAJ and EBSCO	SINTA 2	Feb, May, Aug, Nov	USD 150
IJRCS Research in Community Service RCC	SINTA 4	Jan, Apr, Jul, Oct	USD 70
IJMSC Mathematics, Statistics, and Computing CRP	SINTA 4	Jan, Apr, Jul, Oct	USD 70

Submission deadlines are set by each journal's editor. Ask our team which issue fits your timeline.

Training and workshops

From draft to a Scopus-indexed article.

Hands-on programs for lecturers and researchers, led by trainers who publish in Scopus-indexed journals themselves.

Core program

Scopus publication workshop and coaching clinic

Participants work on their own manuscripts alongside the trainers.

- Choosing the right Scopus journal and avoiding predatory ones
- Structuring the manuscript, from title to discussion
- Responding to reviewers and revising
- Coaching in small groups on participants' drafts

Scientific writing workshop

From research idea to a well-structured article, for lecturers, postgraduate students and early-career researchers.

Research data and AI tools

Practical sessions on analysing data with SPSS and using AI tools responsibly for literature review and writing.

Recent programs

1–2 Oct 2026	**Workshop and coaching clinic: publishing in Scopus-indexed journals**	With UP3M FMIPA, Universitas Pakuan, Bogor
2 Jun 2026	**Scientific article writing workshop**	With Universitas Muhammadiyah Sukabumi. Speakers: Prof. Dr. Sukono, Dr. Hilda Azkiyah Surya, Dr. Moch Panji Agung Saputra, Astrid Sulistya
21 Oct 2026	**Using AI tools for research and scientific writing**	Open webinar series, with Dr. Moch Panji Agung Saputra

Our trainers

Every trainer is an active researcher with a Scopus author profile. Metrics from Scopus, November 2026.

Partner with RCC

Three ways for universities, faculties and research units to work with us. Each package is tailored, and pricing follows the agreed scope.

01

For faculties and research units

Workshop and coaching clinic for Scopus publication

1 to 2 days, on campus or online.

Outputs: manuscripts reviewed by trainers, target journals for each participant, and an activity report.

- Choosing journals and avoiding predatory ones
- Manuscript writing and responding to reviewers
- Coaching on participants' own drafts
- Certificates for participants

02

For universities and associations

Co-hosted seminars and international conferences

Hybrid, on campus or online. RCC handles the publication side.

Outputs: published proceedings or journal articles, a conference report and documentation.

- Theme, scope and schedule planned together
- Call for papers and peer review management
- Publication in ORICS or RCC journals, with Crossref DOI
- Keynote and invited speakers from the RCC network

03

For long-term partners

MoU and MoA partnership

An MoU for the overall partnership, then an MoA for each activity.

Outputs: a signed agreement, a yearly activity plan, and reports for accreditation.

- Yearly workshops and webinars for lecturers and students
- Partner lecturers invited as reviewers or editors, by expertise
- Joint research and community service
- A named contact person at RCC

How a partnership works

1

Initial discussion

Goals, participants, timeline and budget.

2

Proposal

Agenda, trainers, outputs and costs.

3

Agreement

MoU, MoA or work agreement.

4

Delivery and report

The activity, then a report with documentation.

Our publication policy. Every paper, including those from partner events, goes through independent peer review. A partnership never guarantees acceptance.

RCC Tutoring

Guided lessons for school students and test takers, from elementary school to the civil service exam.

SD	**Elementary school, grades 1–6** English, Mathematics, Science (IPA)	**IDR 50k – 80k** per session
SMP	**Junior high school, grades 7–9** English, Mathematics, Science (IPA)	**IDR 60k – 100k** per session
SMA	**Senior high school, grades 10–12** English, Mathematics, Science (IPA), Physics, Chemistry, Biology	**IDR 80k – 130k** per session
UTBK	**University entrance test (UTBK-SNBT)** Scholastic aptitude, Indonesian and English literacy, mathematical reasoning	**IDR 100k – 160k** per session
CPNS	**Civil service basic competency test (SKD)** National insight (TWK), general intelligence (TIU), personal characteristics (TKP)	**IDR 100k – 160k** per session

Choose how you learn

Class size

Private: one student and one tutor.

Small group: up to 10 students per group.

Where

Online, through a video call.

Face to face, at the student's home or at RCC in Riung Bandung.

Tutors

Led by RCC team members with degrees in mathematics, including lecturers at Universitas Padjadjaran.

Free consultation before you sign up. WhatsApp +62 852-8769-4386

Prices are indicative ranges. The final price depends on the class format and is confirmed by our admin before the first lesson.

Institutions we work with

Cooperation agreement (PKS) with Universitas Pakuan

Cooperation agreement (PKS) with Universitas Jenderal Soedirman

Universitas Pakuan	Cooperation agreement, and the Scopus publication workshop and coaching clinic with UP3M FMIPA, October 2026
Universitas Jenderal Soedirman	Cooperation agreement for MBKM placements of Statistics students at RCC
Universitas Muhammadiyah Sukabumi	Scientific article writing workshop, June 2026
Himatika FMIPA, Universitas Padjadjaran	Partner of the National Mathematics Seminar

Let's work together.

Tell us about your institution, students or research goals, and we will propose the right program.
